Operational Resilience

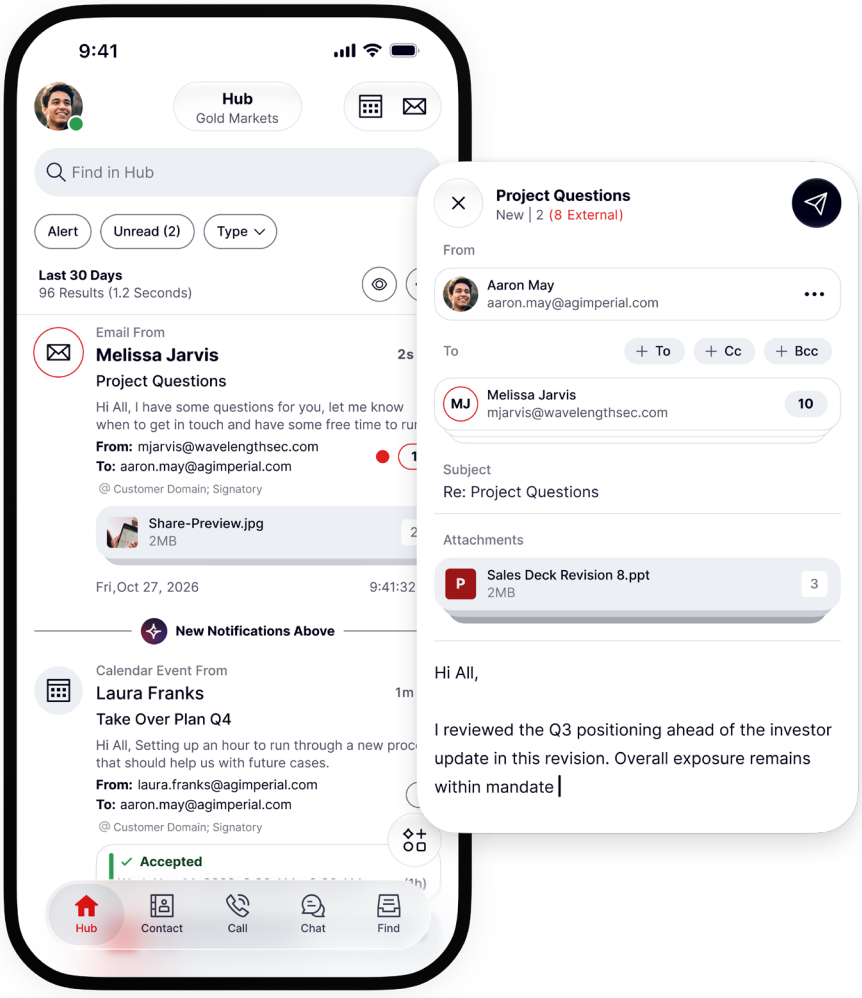
When your email vendor goes dark,
will your disaster recovery plan work?

The Global Relay App “is always on” and up to date with all your email, calendar events and messages.

Send and receive email and access all communications data, even during an outage.

Find anything in 2 seconds with simple gestures. Leverage our AI Assistant and maintain operational efficiency.

All on a secure, reliable, and compliant platform.



Capitalize on your recordkeeping data—it’s common sense.

Operational excellence is expected by regulators and key stakeholders.

The financial and reputational risk of inaction just isn’t worth it.

Warren Roy
CEO
Global Relay

Hub

Real-time email, calls, and chat with unlimited mailbox storage. A single pane of glass for your communications.
