MOBILE MESSAGE ARCHIVE SEARCH

Elite Alliance Member

Global Relay is a BlackBerry Elite Alliance Member.

Access your Message Archive on BlackBerry® smartphones

Search and retrieve archived messages anywhere, anytime. Get rapid, secure mobile access to all types of archived messages, including SMS, PIN-to-PIN and call logs with Global Relay Search for BlackBerry — a BlackBerry Super App.

BlackBerry Archiving Solutions

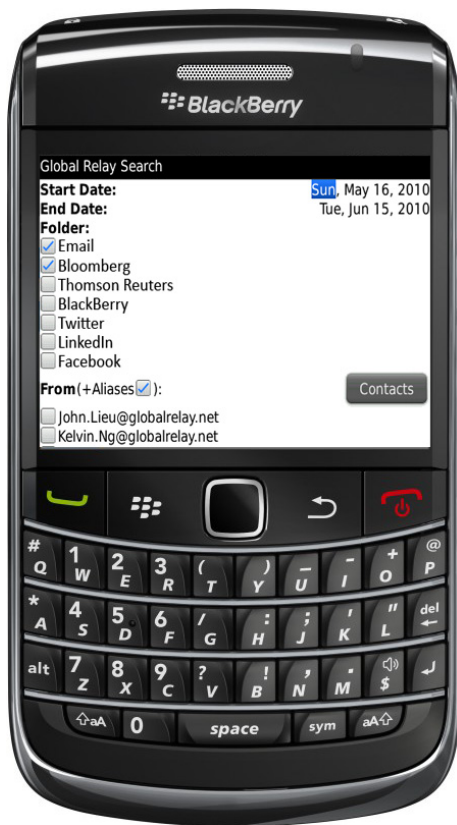

A unified source for every message type. As an integrated part of the Global Relay Archive, Global Relay Search for BlackBerry provides quick mobile search and retrieval to all archived BlackBerry message types — including email, SMS, PIN-to-PIN and call logs. This BlackBerry Super App also provides access to other archived message types such as email attachments, IM, Bloomberg, Thomson Reuters Messaging, Social Networking (LinkedIn, Twitter, Facebook) and more.

Fast and powerful search tools. At the core of Global Relay Search for BlackBerry is Global Relay's proprietary indexing technology — allowing users to rapidly search, reply, reply all, forward, and recover across every type of message. Advanced search functionality such as Boolean, wildcard, phrase and proximity searches ensure quick, accurate search results.

Benefit from an unlimited mailbox. Limited message retention on smartphones is no longer a constraint. Global Relay Search for BlackBerry gives users access to an unlimited personal mailbox, allowing easy retrieval of any historical message — regardless of message size or age.

Designed for Compliance

Ensure regulatory compliance. Global Relay Search for BlackBerry is an integrated component

of Global Relay Archive. The system works to capture, serialize, index and preserve your firm's messages to meet the compliance requirements of firms in highly regulated industries. Our dedicated in-house legal, audit and eDiscovery teams are always available to guide customers through audits, eDiscovery requests and legal proceedings.

Get it at  BlackBerry App World.
