WhatsApp enable your business

Compliant connection to your customers and prospects using WhatsApp

Your compliance solution

Empower your employees
Connect to customers on the apps they use. Accelerate business growth and outpace your competitors.
The Global Relay App is tied to a business number. It separates your business relationships from your personal life and eliminates compliance risk.
Voice, text, WhatsApp and search combined in our omni-channel app is simple, convenient and compliant.

Be WhatsApp compliant
Relationships matter. Global Relay’s relationship with WhatsApp marries community with compliance.
Your WhatsApp Business Account (WABA) is the cornerstone of your brand. Global Relay provides centralized management of your WhatsApp-enabled workforce, ensuring compliant data capture and archiving.
As a direct WhatsApp Business Solution Provider (BSP), we work with Meta to provide complete 24/7 support.

Leverage your brand
Your credibility online is tied to the strength of your brand presence. A new prospect will trust a connection from an authentic and notable business account which highlights your company, logo and line of business.
We give you the tools to present your brand in an organized and professional manner. Automated templates and disclaimers ensure consistency and compliance.

Maintain control
Our Connectors capture, reconcile, and structure WhatsApp data, preserving its original format to ensure quality, accuracy and completeness, with delivery to our archive or yours.
The Global Relay App, tied to your Business number (owned by your company), protects and retains your customers and their records.
Our integrated compliance technology stack meets core regulatory requirements (SEC, FINRA, FCA, MIFID II).

Global Relay App
One phone, two numbers

Separate your business and personal life

Your personal life
Your phone number, your apps, your personal relationships

Your personal WhatsApp

Your business life
Your business number, your contacts, your calls, text and WhatsApp for Business

Your WhatsApp for Business

Social messaging for business
A second number enables you to connect with your customers, represent your company and remain compliant.

Complete BYOD
A Mobile Device Management (MDM) service is only part of your BYOD solution. A second number with the Global Relay App makes it complete.
Credibility in the eyes of your customer
And compliant for business

Your brand on WhatsApp

Your WhatsApp Business Account
Global Relay enables your brand
- Logo
- Company name
- Line of Business
- Verified authentic and notable business account

Your company profile
Clearly convey your industry, line of business and its description along with your email and website.

Your custom disclaimer for each line of business

Your introduction template

Setting you up for success
Global Relay works with you to provide a complete technical implementation and representation of your business and its brand on WhatsApp.

Your next referral
A client’s referral, with a simple share in your profile is the easiest way to grow your business.
The Global Relay App is flexible

WhatsApp enable BYOD, landline, corporate mobile

**BYOD: one phone, two numbers**
- Registering new phone numbers or porting existing numbers
- Separating your business and personal life
- WhatsApp enablement fully automated by Global Relay

Global Relay App enables Voice, Text, WhatsApp and Search.

**Landline: leveraging your existing number**
- North America only (+1 country code)
- Zero disruption, retain your existing telco voice plan
- WhatsApp enablement fully automated by Global Relay

Global Relay App enables Text, WhatsApp and Search.

**Corporate mobile: no carrier plan impact**
- Registering existing phone numbers
- Text (SMS) is captured via carrier partners of Global Relay
- WhatsApp enablement requires employee confirmation by text

Global Relay App enables WhatsApp and Search.

**BYOD**
Global Relay App BYOD deployment has the lowest Total Cost of Ownership and cleanest separation of business and personal life.

**Access**
All Global Relay App deployments above are synchronized across mobile (iOS & Android), desktop and web.

Models, Transcription
Intelligent data analysis

Archive
Compliance, Archive, eDiscovery and Analytics

Ranked #1: Gartner® Report, 2022
Global Relay Archive ranked the highest in all four use cases in 2022 Gartner® Critical Capabilities for Enterprise Information Archiving.*

*Source: Gartner, Critical Capabilities for Enterprise Information Archiving, 24 January 2022, By Michael Hoeck, Jeff Vogel, Chandra Mukhyala.

Global Relay App
Design-driven workflows optimized for compliant recordkeeping across every channel. Deploy our app as part of your compliance policy and all forms of communication (voice, text, enterprise and social messaging) meet supervision and recordkeeping rules.

Our technology stack
Our connectors capture every data type. We then classify and apply AI and ML enrichment. Each object is encrypted leveraging a Hardware Security Model (HSM), and stored as a business record with a unique sequential serial number.
Global Relay: a leader in compliance technology

Driven by innovation

Market experience and ability to execute

There is a better way
In a perfect world, you would have one Gold Copy of all company data, access controlled and available to all stakeholders across mobile and desktop.
We achieve this by segregating functions, ring-fenced environments with configurable entitlements and absolute confidentiality e.g. marketing, business, compliance, legal, etc.
Regulated customers rely on us to simplify their environment, reduce cost and control business risk.

Two decades of innovation
We invented message archiving and supervision in the cloud and set the standard for the industry.
We design, build, own and operate our technology stack, connecting to an ever changing ecosystem of enterprise and social messaging, voice and data platforms.
Our customers depend on our supervision, recordkeeping and a single Gold Copy of their data, stored in our private data centers to meet their regulatory obligations.

Know your vendor
Choosing the right vendor is a critical decision. Regulators require that you conduct annual due diligence on your vendor to protect yourself from risks and potential enforcement.
We provide a comprehensive due diligence documentation package for your analysis or annual audit, including a SOC 2 audit test and report.

Our security standards
Secure, compliant recordkeeping has been the core of our business for two decades. Regulators require firms to consider the capability, experience and competence of the vendors they use.
Our rigorous security approach protects the accessibility, integrity, and confidentiality of your business records. We are ISO 27001 certified.
WhatsApp for business
Enabled by Global Relay in 4 steps

01
Register your company with Meta

Customer
• Registers a Meta Business Management Account (BM) in the Meta Business Suite
• Set up an Administrator under the BM
• Administrator provides BM ID to Global Relay

Global Relay
• Enables Customer, Global Relay and WhatsApp integration
WhatsApp integration is now live.

Meta

02
Confirm your Line of Business

Customer to provide Global Relay with:
• Each Line of Business (LOB) and its display name
• A disclaimer for each LOB
• An estimated number of WhatsApp for Business users for each LOB

Global Relay
• Sets up custom disclaimer for each LOB
• Sets up required introduction template for each LOB
• Automates required business initiated conversation templates for text, media and documents
• Manages your clients opt-out service (GDPR/privacy)

03
Approve your WhatsApp Business Accounts (WABA) with Meta

Global Relay
• Creates one or more WABAs on behalf of the customer for each LOB
• Notifies customer’s Administrator of WABA creation within the Meta Business Suite

Customer
• Approves WABAs

04
Activate your service

Customer determines the phone number enablement policy within each LOB
• BYOD, landline or corporate mobile

Global Relay provisions the above phone numbers based on:
• Customer’s LOB Groups (manual)
• Customer’s Active Directory Groups (SCIM automation)
• Your WhatsApp account is now eligible for verification
• Employee is WhatsApp enabled in the Global Relay App
