

### **Telecom Third Party Platform Connectors (SST41396463)**

The following terms apply to any Global Relay Connector which interoperates with a telecommunications service provider Third Party Platform. Customer acknowledges and agrees that availability of such Global Relay Connector(s) is subject to Customer securing and providing Global Relay appropriate authorization(s), mobile recording and API access to the relevant Third Party Platform, including by way of separate written authorization, directions or agreement as applicable. Customer further acknowledges and agrees that these terms apply alongside any additional terms that the applicable telecommunications service provider Third Party Platform requires.

Customer is responsible for all activities under its Third Party Platform account(s), and further acknowledges and agrees that data from the Third Party Platform which is of unacceptable size or quality or which is expired, deleted, corrupted, unplayable, or otherwise unavailable may not be ingested and preserved in the Global Relay Archive. Third Party Platform source transcription material similarly may not be ingested and preserved in the Global Relay Archive. Customer agrees to pay for any and all overage, consumption, API call or other Fees levied by any Third Party Platform for Customer's use of these Services, as may be charged to Customer from time to time.
