Specification for Global Relay Connector for Google Workspace (SST50552122)

These terms apply where Customer elects to configure the Global Relay Connector for Google Workspace with Google's third-party archiving feature (the "Google Feed"), as further set forth here:

(a) Customer is solely responsible for configuring its Google Workspace tenancy to deliver to the feed address issued by Global Relay, for restricting who within its organization may change that configuration, and for promptly notifying Global Relay of any change.

(b) Global Relay may change the provisioning requirements for the Google Feed on reasonable advance notice where necessary to preserve the security or integrity of the Service.

(c) To the maximum extent permitted by law, Global Relay has no liability for loss arising from Customer's tenancy configuration. Global Relay's aggregate liability in respect of the Google Feed is subject to the limitations of liability in the Agreement.
